Notes:

[1] *Parent, in this table, means the Promoter.*

[2] *Recharge vouchers sold to Reliance Retail Limited are accounted as 'Advance against services' which is disclosed as a related party transaction under the head 'Revenue received in advance'. When Reliance Retail Limited or its distributor/ sub-distributor further sells the vouchers to our customers by way of recharge to the digital connectivity services, RJIL recognises such transfer as 'Deferred revenue' and thereafter, based on the type of tariff plan, it is accounted as operating revenues in the profit & loss account. In light of the above, revenue received in advance has not been presented as a percentage of revenue from operations.*

[3] *Cash Capex refers to the cash outflow towards expenditure for property, plant and equipment, spectrum and other intangible assets less proceeds from disposal of property, plant and equipment and other intangible assets.*

3. **Dependency on Reliance Retail Limited for distribution of prepaid connectivity services:** RJIL has a master distribution agreement and a master collection agreement with RRL. RRL is the sole distributor of our pre-paid connectivity services. Our revenue from pre-paid connectivity services constituted 76.37%, 77.88%, 77.08%, 78.57% and 79.35% of our consolidated Revenue from Operations for the three months period ended June 30, 2026, June 30, 2025 and Fiscals 2026, 2025 and 2024, respectively. Any disruption in this relationship or distribution channel could adversely impact our business, financial condition and results of operations. The following table provides the details of the Revenue Received in Advance attributed to the above arrangement with RRL:

Particulars	Three months ended / As of June 30		Fiscal / As of March 31		
	2026	2025	2026	2025	2024
	(in ₹ million)				
Revenue Received in Advance	292,480	271,663	1,129,351	1,023,958	890,587

4. **Dependency on RJIL that contributes significantly to our Revenue from Operations, EBITDA and PAT and KPIs relating to digital connectivity services:** RJIL contributed significantly to our Revenue from Operations, EBITDA and PAT in periods / Fiscals as indicated below:

Note: The financial information of RJIL provided above is on a standalone basis.

Any material adverse impact on the business, financial conditions or results of operations of RJIL would have a corresponding material adverse impact on our consolidated business, financial condition and results of operations. Further, while we operate as a technology platform, our key operational indicators ("KPIs") are primarily pertaining to our digital connectivity services provided by RJIL and do not reflect the technology platform specific metrics. Our competitors may perform more favourably on certain operational or financial KPIs, which could affect our competitive position. For details of comparison of the KPIs of our Company with listed peers, see *"Basis for Issue Price - Comparison of KPIs with Listed Industry Peers"* on page 135 of the RHP.

5. **Network, Infrastructure and Service Disruption Risk:** The uninterrupted performance, reliability and availability of our network, passive infrastructure, technology, products and services are critical to our operations and our ability to consistently deliver our digital services. Any disruption to our network, passive infrastructure and technology could impair our ability to ensure consistent performance and deliver uninterrupted customer experience, which could have a material adverse impact on our business, financial condition and results of operations, and could lead to increased churn in our customer base.
6. **Risk related to Technology change:** The connectivity industry is subject to rapid and continuous technological change, and our connectivity infrastructure faces the risk of technological obsolescence. If we are unable to respond to changes in technologies, including for instance, more competitive satellite-based broadband services and the evolving demands of our customers, we may face technological obsolescence, which would have a material adverse impact on our business, financial condition and results of operations.
7. **Risk relating to negative publicity of 'Jio' Brand:** The "Jio" trademark is owned by the Promoter, and we do not control the use of this trademark by other companies in the Reliance Group. Negative publicity arising from actions outside its control, inability to protect intellectual property or infringement claims could have a material adverse impact on our reputation, business, financial condition and results of operations.
8. **Dependency on a limited group of passive infrastructure service providers:** We rely on a limited set of passive infrastructure service providers for our operations. For instance, of the 360,537 Network Towers used by us for our operations, 174,451 Network Towers are owned by Summit Digitel Infrastructure Limited, as of June 30, 2026. Additionally, as of June 30, 2026, we rely on Jio Digital Fibre Private Limited, for substantially all our optic fibre network requirements (approximately 98%), aside from the last mile fibre network which is owned by RJIL. Any disruption in the availability of these passive infrastructure assets could have an adverse impact on our business, financial condition and results of operations.
9. **Cybersecurity, Data Privacy and Information Security Risk:** Our systems, platforms, network infrastructure, and the services provided by our Promoter and third-party technology partners are exposed to cybersecurity threats, security breaches, operational disruptions, and other technology-related risks. Any such incident or disruption could impair our operations, compromise data security, increase costs, expose us to regulatory and legal liabilities, and adversely affect our business, results of operations, financial condition, and reputation.
10. **Artificial Intelligence ("AI") and Machine Learning ("ML") Technologies Related Risk:** We rely on AI and ML technologies across our operations, including for network automation through our proprietary JioBrain platform, customer engagement and service delivery. The deployment of AI and ML technologies across our operations may not yield the desired results. Further, reliance on AI/ML technologies may expose us to inherent risks pertaining to algorithmic bias and model errors leading to inaccurate or biased outputs, which may cause reputational harm and adversely impact our business, financial condition and results of operations.
11. Our Price/Earning (P/E) ratio based on diluted EPS for Financial Year 2026 at the upper end of the price band is 33.31 as compared to the average industry peer group P/E ratio of 22.35, as of October 13, 2026.
12. Weighted Average Return on Average Net Worth for Financial Year ended 2026, 2025 and 2024 is 9.04%. Return on Average Net Worth for the three months ended June 30, 2026, and June 30, 2025 is 2.30% and 2.31% respectively (unannualized).
